Our history

MOTTO :

“With our abundant experience, we believe that we will be able to provides good service for all our customer and We will be become a great company”.

1PL

Retailers/Manufacturers

Goods producers that manage their own logistics which include internally-owned transport vehicles, trailers, trucks, and/or warehouses. Typically have direct relationships with customers.

Producers independently transporting goods

2PL

Transporters

Asset-based companies that offer a range of transport services. Owns its own fleet of transportations such as trucks, ships, or airlines; out of which they also offer the lease.

Provides transport and/or storage services

3PL

Contract Logistics

Companies that offers outsourced operations of logistics, providing services related to supply chain such as transportation, warehousing, cross-docking, packaging, inventory management, and freight forwarding.

Provides outsourced operational logistics related to supply chain

4PL

Service Providers aka Lead Logistics Provider (LLP)

Non-asset companies that manages supply chain management of enterprises, subsequently creating a completely customized solution and becoming the single point of contact in all aspect of supply chain to the customers.

Manages entire supply chain process through subcontracted parties

5PL

Management of Supply Network

Total optimization of the logistics and supply chain network by leveraging tech. Typically for e-business, they consolidate 3PL requirements and negotiate bulk rates in return, minimizing costs where possible.

Aggregates demand into bulk, shifting to supply network
